

Muhammad Taha Siddiqui

Lead NetSuite Technical Consultant | Full-Stack Developer (MEVN)

taha_siddiqui1994@yahoo.com | +92 303 253 5638 | Karachi, Pakistan

PROFESSIONAL SUMMARY

Lead Technical Consultant with 7+ years of experience specializing in NetSuite (SuiteScript 1.0/2.0/2.1, SuiteCloud, SuiteAnalytics, SuiteTalk) and full-stack development on the MEVN stack. Proven ability to translate complex business requirements from SOWs into scalable, high-performance technical solutions. Experienced in leading code reviews, architecting custom integrations, and overseeing end-to-end development across project management, logistics, and e-commerce platforms. Adept at driving operational efficiency through automation, business process optimization, and cross-functional collaboration.

WORK EXPERIENCE

Lead Technical Consultant / Senior Software Engineer

Oct 2019 – Present

Folio3 LLC | Karachi, Pakistan

- Lead solution design and code reviews for NetSuite customizations, translating SOW requirements into scalable technical implementations for enterprise clients across the US and UAE.
- Architected and delivered end-to-end integrations between NetSuite and third-party platforms including Asana, Calendly, logistics partners, and online shopping applications using custom integration frameworks.
- Developed advanced, multi-purpose single-page web applications and custom reporting interfaces using Vue.js, optimized for large datasets with computed properties and real-time data rendering.
- Designed and implemented business process automation workflows using SuiteAnalytics and SuiteScript 2.1, improving reporting accuracy and operational visibility for clients.
- Mentored junior developers and maintained code quality standards across projects, ensuring adherence to NetSuite best practices and SuiteCloud development guidelines.

Software Engineer

Jan 2019 – Oct 2019

HMI Ventures | Karachi, Pakistan

- Contributed as a backend developer (Laravel) to HomeChef, a live homemade food delivery platform, building and refining RESTful API endpoints to support evolving product requirements.

Software Engineer

Jul 2018 – Oct 2018

Sudoware | Karachi, Pakistan

- Developed new features and enhanced an existing live CRM product using Laravel and Node.js, improving system functionality and user experience.

KEY PROJECTS

NetSuite–Asana Integration Module

United States

Designed and developed a custom producer-consumer integration architecture to synchronize data bidirectionally between Asana and NetSuite. Enabled automated employee record sync, project creation, and time-log entries, ensuring accurate and real-time time tracking within NetSuite. Improved operational efficiency and cross-system visibility between project management and financial reporting workflows.

Advanced Timesheet Management System with Custom Reporting

UAE

Built a dynamic timesheet management platform using Vue.js for efficient data input, tracking, and multi-level reporting of employee work hours and job cards. Delivered custom report generation covering job-specific totals, employee summaries, and global metrics to enhance business intelligence. Integrated a robust Node.js back-end ensuring data integrity, real-time insights, and seamless timesheet processing across departments.

TECHNICAL SKILLS

NetSuite: SuiteScript 1.0, 2.0, 2.1 | SuiteCloud | SuiteAnalytics | SuiteTalk | SuiteFlow

Full-Stack: MEVN Stack (MongoDB, Express.js, Vue.js, Node.js) | REST APIs | MVC Architecture

Backend: Laravel (PHP) | Node.js | MySQL | Redis

Integration: Asana API | Calendly API | Logistics & e-Commerce Platform APIs

Other: Git | Agile/Scrum | Solution Design | Code Review | Technical Documentation

EDUCATION

BS – Computer Science

2015 – 2019

DHA Suffa University | Karachi, Pakistan

CERTIFICATIONS

- NetSuite SuiteFoundations Certification
- NetSuite Application Developer Certification
- NetSuite Foundation Associate
- Node.js – MVC, REST APIs & Application Architecture
