DHA Suffa University

BS - Computer Science

2015 - 2019

PROJECTS

Integration Project: Asana and NetSuite Sync

United States

Developed a **custom integration module** using a **producer-consumer architecture** to synchronize data between **Asana and NetSuite**. Enabled seamless **employee record sync**, **project creation**, and **hours logging**, ensuring accurate time tracking in NetSuite. **Automated data flows**, enhancing operational efficiency and improving visibility between **project management and financial systems**.

Advanced Timesheet Management System with Custom Reporting

UAE

Developed a **dynamic timesheet management platform** using **Vue.js**, enabling efficient data input, tracking, and reporting for employee work hours and job cards. Built **custom report generation** for job-specific totals, employee summaries, and global metrics, enhancing **business intelligence**. Optimized performance with **computed properties**, handling large datasets seamlessly. Integrated a **robust backend**, ensuring efficient timesheet processing, data integrity, and real-time insights across departments.
